EDUCATIONAL WEBSITES

General Information

SHARING OF DATA THROUGH DROPBOX

Dropbox is a Web—based file hosting service operated by Dropbox, Inc. that uses cloud storage to enable users to store and share files and folders with others across the Internet using file synchronization. There are both free and paid services, each with varying options. In comparison to similar services, Dropbox offers a relatively large number of user clients across a variety of desktop and mobile operating systems.

Communication through Skype

Skype is one of the newest applications used for chatting. It features text, audio as well as video. Skype is now available in 28 languages and is used in almost every country around the world. It uses Voice Over Internet Protocol (VOIP) technology for the voice communication, which makes it very cheap alternative as compared to making calls to various countries.

English Languages

Spelling Website

http://www.kidsspell.com/

kidsspell.com is a spelling website, which has several fun, and high—paced spelling games to help you practice your spelling words. You can pick from over 400 spelling lists, or create your own custom-spelling list. All games will then use the spelling list you have loaded.

 Directory of Hindi websites

http://dir.hinkhoj.com/education/

This is a website where you can find exhaustive learning resources on the Hindi language. You can also find links to almost all popular websites on WWW which have Hindi contents.

English-Hindi Dictionary

http://shabdkosh.com/

It is a highly popular website that serves as a Hindi to English or English to Hindi Dictionary. You can use it a find meaning of any English word in Hindi and of any Hindi word in English.

For subject- and curriculum-specific sites, most of the sites above have facilities to search within each of them for subject materials. Additionally the following may be helpful:

Hindi Language

Directory of Hindi websites

http://dir.hinkhoj.com/education/

This is a website where you can find exhaustive learning resources on the Hindi language. You can also find links to almost all popular websites on WWW which have Hindi contents.

English-Hindi Dictionary

http://shabdkosh.com/

It is a highly popular website that serves as a Hindi to English or English to Hindi Dictionary. You can use it a find meaning of any English word in Hindi and of any Hindi word in English.

Hindi Learning Site

www.bharatdarshan.co.nz/hinditeacher/

A site that can be very useful for the non-hindi speaking people who want to learn basics of the Hindi language. Contents presented can also be used to teach Hindi to the kids.

Hindi Kavitayen

http://www.manaskriti.c0m/kaavyaalaya

Visit this site to view huge resource on Hindi poetry. Many of the poems are quite useful to be taught/discussed in the class. ,

Mathematics

http://www.kidsnumbers.com

This mathematics website is full of exciting, high-paced mathematics games. One can also use the free Nlath Foundations program for new mathematics students.

Ask Dr. Math

http://forum.swarthmore.edu/dr.math/

It is an ideal website for students and teachers to send their math questions in an e—mail and receive a reply.

Math Magic

http://www.forum.swarthmore.edu/mathmagic/index.htmI

This is a K12 site that has students team together to solve math-related problems. The problems are broken down by grade-level.

Teacher Kids Math

http://www.teachrkids.c0m/ P

This site helps learners to learn number basics, addition, subtraction, fractions, and much more with interactive online math worksheets. Exercises are designed for preschool through 3rd grade students.

Math soft Puzzle Page

http://www.mathsoft.com/puzzle.html

The site has useful mathematical puzzles to be solved. Some of them could be used in the High School math class; others could be for extra practice and application of skills.

How Stuff Works

http://www.howstuffworks.com/

(See how things work (batteries, engines, cellular phones, etc.) with illustrations and explanations.

BIOLOGY

Animal Resources

http://www.`SeaWorld.org

A great site for the animal world

Example: Sea World — Information and photos of animals and plants in the ocean.

Animal Information

http://netvet.wustl.edu

A very great deal of information about animals including technical information is available on this site.

Animal Database

http://www.kidsbiology.com/animals-for-children.php

The site has a huge animal database, with hundreds of animals you have never seen before.

Take a virtual trip to the zoo with the Kids Know lt Network.

Human Biology Website

http://www.kidsbioIogy.com/human_biology/index.php

The site helps to make learners understand how our body digests food, how our brain sends messages to our muscles, and much more.

Biology Website

http://www.kidsbio|ogy.com

Biology is the fascinating study of life on Earth. Come along with us, as we become microscopic and journey inside a cell, discover new types of life forms, and play biology games. kidsbio|ogy.com is an exciting and fun place to discover the world of life.

Dinosaur Website

http://www.kidsdinos.com

65 million years ago monstrous reptiles roamed freely across the Earth, only to mysteriously disappear. Read articles about dinosaurs, search the dino database, vote for your favourite types of dinosaurs, and play dinosaur games, on KidsDinos.com, a prominent dinosaur website.

TRC

Encyclopedia Britannica

http://www.britanica.com

An outstanding collection of information an encyclopedia entirely free.

A free world -class education for anyone

http://www.khanacademy.org/

This is a library of over 3000 videos covering everything from arithmetic to physics, finance, and history and hundreds of skills to practice; they are on a mission to help you learn what you want, when you want, at your own pace.

Spreading ideas
TED.com

http://www.ted.com/talks

TED.com offers free knowledge and inspiration from the world's most inspired thinkers, and also a community of curious souls to engage with ideas and each other. This site, launched April 2007, is an ever-evolving work in progress, and you're an important part of it. Have an idea?

TED is a nonprofit devoted to Ideas worth spreading. It started out (in 1984) as a conference bringing together people from three worlds: **Technology, Entertainment, and Design.**

Here you will find the best talks and performances from **TED** conferences, TEDx and partner events -- and the best of the web. On TED.com, They make **the best talks and performances from TED and partners available to the world, for free**. More than 900 TEDTalks are now available, with more added each week. All of the talks are subtitled in English, and many are subtitled in various languages.

Teaching Tool Website

Teacherplanet.com

http://www.teacherplanet.com/

`Teacher Planet features over 330 theme based resource pages. Find these by searching its calendar or by Alphabetical Listing of all themes from A—Z.

Abcteach.com

http://www.abcteach.com/

Quality educational site offering 5000+ FREE printable theme units, word puzzles, writing forms, book report forms, math, ideas, lessons and much more.

http://www.schoolexpress.com

7000+ free worksheets; phonics, math, language, arts, science, Locate hundreds of educational websites.   Download 30 children's reading books.

http://www.sitesforparents.com/

Help your child with math by playing games. Make Math Fun and Easy with the activities. This is a site for teachers, parents, and kids featuring educational games.

CNET

http://www.cnet.com

A wonderful website for computer enthusiasts: news, reviews, commentary, etc. The latest news on computer viruses, the best prices of a new system, etc. Also other information about the computers such as how to install a second hard drive, etc.

Discovery Channel Online

http://www.discovery.com

Online news updated daily, in categories of history, technology, nature, exploration, and science.

http://www.teachernet.gov.uk/Useful — Lesson_Plans_Resources. This provides lessons for all subject areas and all levels and key stages of schooling, and is a sub—directory of Teacher Net

http://www.teachernet.gov.uk; this latter site provides copious links to other websites within each subject and key stage. Schemes of work in every National Curriculum subject can be found

http://www.standards.dfes.gov.uk/schemes/. Two other government sites are useful: The Office for Standards in Education (OFSTED) at http://:swvw.ofsted.gov.uk and the Teacher Training Agency (TTA)

http://www.canteach.gov.uk. The British Broadcasting Corporation (BBC) at http://www.bbc.co.uk provides a vast col- election of high-quality teaching and learning resources, and a useful guide to these can be found at http://bbc.co.uk/Webguide and http://www.bbc.co.uk/education, with specific second-ary revision topics for GCSE public examinations at http://www.bbc.co.uk/education/gcsebitesize.For schools the BBC site http://www.bbc.co.uk/schools/ is outstanding. A huge resource bank can be found at http://www.schoolzone.co.uk Channel 4 television provides many web resources, and can be found at http://www.·;hannel4.com/learning/index.html.

A major source is the British Educational Communications and Technology Agency (BECTA): http://curriculum.becta.org.uk Newspapers are a useful source, and often link readers to other websites.   for   example: http://www.tes.co.uk/educational_links/index.asp   and http://www.education.guardian.co.uk.

 The National Foundation for Educational Research (NFER) provides many pages of links to a host of other organizations for all curriculum subjects, special needs, inclusive education, assessment, organisations, community links, professional development and indeed a comprehensive index of UK sites: http://wwwv.nfer.ac.uk/weblinks/wwwlinksasp.

There are several other providers of resources, it example:

British Computer Society:

http://www.bcs.org.uk/schools/training.html

Clipart http://www.clipart.com
